## EXPERIENCE

**FRESHER**
**\*\*PROJECTS\*\***
**SPOTIFY CLONE**

Developed a Spotify clone using HTML, CSS, and JavaScript, featuring a user-friendly interface for music browsing and playback. Implemented API fetching with asynchronous functions and Promises to retrieve and display music data dynamically. This project enhanced my understanding of modern JavaScript practices and API integration.

### Hotel Room Management System

Created a hotel room management system using Python, focusing on Object-Oriented Programming (OOP) principles. Utilized recursion for efficient data handling and implemented tuples as a runtime database to manage room bookings and availability. This project deepened my understanding of OOP concepts and advanced programming techniques.

### Portfolio Website

Developed a personal portfolio website using React and Tailwind CSS to showcase my projects and skills. Designed a responsive and visually appealing layout, implementing dynamic components to enhance user experience. This project strengthened my proficiency in front-end development and modern design practices.
